Question:	What were the strongest qualities of the course?
Response Rate:	100.00% (4 of 4)

1	We went through everything in class until everyone understood the material. I never felt like I was slipping behind if I had a question or my code wasn't working.
2	I think the best quality of this class was working through each of the technique hands on in class before we had to dive into using them for our take-home assignments.
3	I like being able to visually learn because that is how I best retain information.
4	Class demonstrations were taught well and were helpful when doing the assignments.

Faculty:	Herges, Kyle N
----------	----------------

Question:	What suggestions would you offer the instructor to improve the course?
Response Rate:	50.00% (2 of 4)

1	Sometimes there would be an easy assignment assigned in the middle of the week that was actually not that easy and I would have appreciated the weekend to work on them. It's hard to come up with four and five hours in the middle of the week to work on something you didn't plan on needing that much time for.
2	One thing that I think could help improve the class is by offering some kind of tutor services for when individuals get stuck. I think this would be a good thing to implement because I often got frustrated and overwhelmed when I could not figure something out.

Faculty: Herges, Kyle N
Question: What suggestions would you offer the instructor to improve the course?
Response Rate: 62.50% (5 of 8)
1 Give students a head start with the assignments.
2 none
3 The only other thing that I would suggest would be to have a day of questions and teaching the students everything like we did that one day, a little bit sooner. Other than that everything was a great learning experience.
4 There isn't much I would change within the class. It was structured properly for the material covered.
5 Make sure students know through and through about the assignments.

Question: What were the strongest qualities of the course?
Response Rate: 83.33% (5 of 6)
1 discussion was good and helpful. lots of hands on stuff which i enjoy
2 This is a fantastic class with an under appreciated education style. By far my favorite class and because this is my major; I am extremely excited to keep learning. Because of the unique subject matter the pace of the class was extremely slow for majors but non-majors seemed to be overwhelmed at times. This is an issue that is small and almost impossible to address. Awesome course!
3 Kyle is an effective teacher with a great attitude.
4 Gave a lot of information
5 Review of HTML/Learning HTML5

Faculty: Herges, Kyle N
Question: What suggestions would you offer the instructor to improve the course?

Response Rate: 50.00% (3 of 6)

- | | |
|----------|---|
| 1 | Kyle is very helpful. I struggled in this course and he helped alot. |
| 2 | Kyle was flexible with assignments and constructive when giving feedback. Students were not penalized for mistakes but rewarded for PROGRESSION. This was a great learning environment and Kyle would slow down if the class as a whole needed clarification or review. VERY challenging but also EXTREMELY educational. Love this class. |
| 3 | Sometimes old school is a good thing. I would suggest having the first couple assignments done in a text editor instead of using Dreamweaver. |

Question:	What were the strongest qualities of the course?
Response Rate:	85.71% (6 of 7)
1	The strongest quality of this course was the availability to the computers and teacher we had at all times.
2	Lots of work time
3	Hands on learning with the huge MAC computers in the MAC lab is nice. 24 hour access to the lab is really helpful. The small class size and working with peers is helpful.
4	It was a fun learning atmosphere.
5	Hands on learnig experience and alot of in class project examples but a lot of out of class time was required.
6	I think it was a very interesting course. I had a hard time getting into it at first, but at about midterm, things just clicked and I really enjoyed it more.

Faculty:	Herges, Kyle N
-----------------	----------------

Question:	What suggestions would you offer the instructor to improve the course?
Response Rate:	57.14% (4 of 7)
1	Keep doing what your doing
2	The in class assignments were my favorite because they test your knowledge of the material in class yet the instructor is right there to help you if you get stuck.
3	N/A
4	I dont have any suggestions. I felt the instructor was well versed in the knowledge and taught it in a way that was understandable and could be use later on.

Question:	What suggestions would you offer the instructor to improve the course?
Response Rate:	66.67% (4 of 6)
1	None...? I feel he's doing an awesome job; I knew very little HTML before and had trouble retaining it, but this is simple and easy to follow and remember.
2	Have a pizza party.
3	i have non he did a great job teaching to students who knew nothing about the course.
4	better explanation of homework assignments

Question:	What were the strongest qualities of the course?
Response Rate:	80.00% (4 of 5)

- 1 learning to build webpages
- 2 HE always make show everyone in the class understand what we was doing or what we just did before moving on.
- 3 gives general idea of how to design a web page to work on the internet
- 4 I like that we learned how to use Html code and design web pages from the ground up, rather than just learning how to use one program.

Faculty:	Herges, Kyle N
Question:	What suggestions would you offer the instructor to improve the course?
Response Rate:	20.00% (1 of 5)

- 1 a little too much information to fast
