Question:	What were the strongest qualities of the course?
Response Rate:	75.00% (3 of 4)
1	The class showed me the in and outs of what to expect from Photoshop and graphic design work in the future.

2	That he gave us a day to learn new material
3	Receiving feedback from my classmates and my professor was always helpful to me.

Faculty:	Kyle Herges
Question:	What suggestions would you offer the instructor to improve the course?
Response Rate:	75.00% (3 of 4)

1	Nothing. I really like how the class is setup for the whole semester and how I was able to learn so much.
2	Non
3	I thought it was great, no real complaints.

Question:	What were the strongest qualities of the course?
Response Rate:	60.00% (3 of 5)
1	We had the creative freedom when making things in photoshop. Of course, there were a couple of limitations, but we had a lot of room to design whatever we wanted. We were also given chances to improve our work based on the critiques we received in class.

2	Having our work presented in front of the class every week is daunting, but ultimately makes us better designers. Criticism is a something that, as a designer and a person, we all have to deal with. Having all of our resources on the flash drives saves class time and makes the course much easier to navigate. The tutorial videos come in handy when lost on a project or missing class. I can also see those coming in handy later in life.
3	Good instruction and easy to follow. Love the flash drive with tutorials.

Faculty:	Kyle Herges
Question:	What suggestions would you offer the instructor to improve the course?
Response Rate:	60.00% (3 of 5)
1	Nothing. Good instruction and love how much I have improved in Photoshop.
2	None that I can think of. He was always able to answer any questions we had and provided ways to make our artwork better.
3	Having the most updated version of the Adobe suite would be nice for this class so that we are staying up to date within the design world. It might be nice, once in a while, on the discussion posts to do something other than just posting pictures. On those off weeks, having an article on some design trends, photoshop, or composition of design would be helpful to further reflect on our skills.

Question: What were the strongest qualities of the course?
Response Rate: 62.50% (5 of 8)
1 A knowledgeable instructor
2 Dynamic teaching and value based skill and resource focus. Even the activities and assignments that did not provide direct quantifiable outcomes clearly built and improved on existing skills and practices that could then be taken and applied in a million other ways.
3 no comment.
4 There was a lot of in class discussion.
5 Being able to make a project after learning something new and showing it to the class for feedback.

Faculty: Herges, Kyle N
Question: What suggestions would you offer the instructor to improve the course?

Response Rate: 50.00% (4 of 8)

1	We've talked before but I struggled with the process and organizational methods of designs. I'm not a huge fan of online discussions when we can have them in class and I would love to have a few REAL presentations of our work.
2	Encourage students to interact and use the correct design terminology to show their work. Students should have a better understanding of concept and the importance of it. It seems as if students are making decisions about their designs with no apparent reason.
3	Good Job!
4	I really enjoyed this class it was defiantly my favourite course of the semester. I honesty don't think I would change anything about this course to improve it. I liked how we would learn a new technique then apply it right away to a project. I also really liked how we would always share our projects in front of the class for feedback.

Question:	What were the strongest qualities of the course?
Response Rate:	100.00% (2 of 2)
1	The tutorials were always related to what we were about to have an assignment over. Small class.Nice,big Mac computers. Help always available. 24hr Mac lab access. Past tutorials were encouraged to be incorporated into current assignments which helps the retain the knowledge of how to do them.

Question:	What suggestions would you offer the instructor to improve the course?
Response Rate:	100.00% (2 of 2)
1	I think less points for the discussion questions would be nice so that they do not hurt our grade so badly when we forget to do them. It might be nice to have sometimes where an assignment is to make a past assignment better.
